The construction of Poochmagar bridge is one of the sanctioned works under the West Coast Road Scheme at an estimated cost of Rs.4,3650. The work is in progress and is expected to be completed and thrown open to traffic by the third week of April 1956.

As the function is proposed to be held in the third week of this month, I also request permission to incur the expenditure in anticipation of the sanction of Government of India in case their sanction is not received in time.

I request early orders in the matter.

2. The Government of India have sanctioned an estimate for Rs 4,36,500/- for the work of construction of the Bridge across Poochamogaru river at mile 5/4 of the Moodabidri Buntwal road in South Kanara District. The Chief Engineer (Highways) has reported that the work is expected to be completed and thrown open for public traffic during the third week of April 1956. He has not so far reported to Govt. officially the actual date and time of the opening ceremony. The expenditure in connection with the opening ceremony is estimated at Rs 1000/- and the C.E. has requested that as the function is to take place shortly sanction may be accorded to incur this expenditure in anticipation of the approval of the Government of India to the estimate.

3. It is however observed from an invitation card issued by the D.E.(H), South Kanara, that the opening ceremony is fixed for 19-4-1956 at 6.30 P.M. and that M (F & E) will perform the ceremony. The Govt. of India may now be addressed for their approval to debit the expenditure of Rs 1000/- to the estimate for the work. In view of the urgency, the C.E.(H) may also be permitted, as requested by him, to incur the expenditure, in anticipation of the approval of the Govt. of India. Subject to approval, a draft letter to India and a draft order are submitted for approval.

Finance may see before issue.

(It may be mentioned here that a proposal is separately under consideration for re-aligning the West Coast Road in South Kanara District from Cherkala to Baindur along the coastal Route instead of the present alignment of the road through the interior of the District. The Govt. of India have reported that in the event of the proposed new alignment being finally decided upon then the expenditure incurred upto date on the sanction works on the affected section of the existing alignment of the road would have to be met entirely by the State Government from their own resources. The bridge under reference is situated on the affected section of the existing alignment).
